Urgent CARE Clinic Overview

- Evening and Weekend Hours
- **JUST WALK IN!**—no appointment needed
- Save time and money compared to going to the ER
- Urgent CARE provides an alternative if you can't see your doctor right away
- Ideal for visitors and those who do not yet have a primary physician
- Compassionate, quality care in a comfortable, clean setting
- Staffed by skilled and dedicated practitioners with experience in urgent care situations
- Laboratory and X-Ray services on site for fast results
- Designated as a “Certified Urgent Care” by the Urgent Care Association of America
- Most insurances accepted and a 40% discount for cash paying patients

When to use Urgent CARE

- For medical conditions that are not considered life-threatening
- For unexpected injuries or illnesses that require medical attention

SHOULD I GO TO URGENT CARE OR TO THE EMERGENCY ROOM?

If you are experiencing a medical emergency, go to your nearest hospital emergency room or dial 9-1-1.

Migraine Control

The Urgent CARE Clinic was established for your convenience. You can receive medical care for **urgent** problems when you are unable to see your regular physician.

No appointment is necessary. We will accommodate you as soon as possible, but please remember that although; everyone is seen at the Urgent CARE Clinic on a first come, first served basis some patients maybe seen sooner based on the severity of their symptoms. We do our best to see everyone promptly but due to the volume and the nature of problems we are asked to deal with, there may be a wait. It will, however, be less than the wait of scheduling an appointment or waiting in the emergency room.

You must bring your current insurance card and any insurance co-pays are due at the time of service.
